Permitted use

The authorized recipient receives a non-exclusive, non-transferable license to edit, process, mix, synchronize, and embed these recordings in finished commercial or noncommercial creative projects. Ownership of the recordings remains with the applicable creator and publisher.

No asset redistribution: Do not sell, share, sublicense, upload, or redistribute the recordings - including edited versions - as standalone files, source assets, a competing pack, or a downloadable library.

Attribution

You are expected to make a reasonable, good-faith attempt to credit **Vox After Hours** when using this resource. Any appropriate form of credit is acceptable.

CREDITS	**Voice Pack: Vox After Hours**

For sound designers and voice actors

We take a firmer stance with professionals working in this field, as proper attribution is a reasonable industry expectation. Deliberately avoiding attribution may be construed as taking credit for work that is not your own. We reserve the right to pursue appropriate action against misuse, misrepresentation, or unauthorized redistribution of these resources.

AI, machine learning, and generative platforms

Prohibited use: AI/ML training, datasets, voice cloning, synthetic voice generation, or upload to generative voice/video platforms.

These recordings, including edited or derived versions, may not be used to train, fine-tune, test, benchmark, develop, or improve any artificial intelligence or machine-learning model; create a dataset, embedding, voice clone, voice-conversion model, text-to-speech system, synthetic performance, or imitation of the performer; or be uploaded as source, reference, conditioning, or training material to an AI voice, generative-media, avatar, lip-sync, or AI video platform.

Limited editing exception: Ordinary editing, cleanup, synchronization, or placement in a finished project is permitted only when the service does not retain the recordings for training, model improvement, dataset creation, voice cloning, or redistribution. You are responsible for confirming the platform's terms before upload.

License: Wet Hot SFX Commercial Voice Asset License v1.0

Wet Hot SFX Commercial Voice Asset License

Version 1.0 | Vox After Hours Voice Pack

By purchasing, downloading, accessing, or using the licensed recordings, the recipient agrees to the following terms. **Licensed Audio** means the recordings and accompanying audio files supplied with this voice pack.

1. License grant

The authorized recipient receives a perpetual, worldwide, non-exclusive, non-transferable, royalty-free license to use, reproduce, edit, process, mix, synchronize, and embed the Licensed Audio in commercial or noncommercial finished projects, including games, animation, film, audio dramas, podcasts, advertisements, and comparable creative works.

2. Finished projects

The Licensed Audio may be distributed only as part of a finished project in which it is integrated with other creative material and is not offered or made available as standalone audio assets.

3. Attribution

The recipient must make a reasonable, good-faith attempt to credit Vox After Hours wherever project credits are customary or reasonably available. Acceptable examples include **VA Pack: @VoxAfterHours** or **Voice Pack: Vox After Hours**.

4. No asset redistribution

The Licensed Audio - including edited, converted, processed, or derived versions - may not be sold, shared, sublicensed, uploaded, repackaged, or redistributed as standalone files, source assets, sound libraries, competing packs, templates, or downloadable collections.

5. Contractors and team members

The recipient may provide the Licensed Audio to contractors or team members only as necessary to produce an authorized finished project. Those persons must follow this license and may not retain or reuse the files independently. The recipient remains responsible for their compliance.

6. AI and machine-learning prohibition

The Licensed Audio and derived versions may not be used for AI or machine-learning training, fine-tuning, testing, benchmarking, dataset creation, embeddings, voice cloning, voice conversion, text-to-speech systems, synthetic performances, performer imitation, or generative voice/video development. They may not be uploaded as source, reference, conditioning, or training material to generative voice, avatar, lip-sync, AI-video, or similar platforms. Ordinary editing services are permitted only when they do not retain the files for training, model improvement, dataset creation, voice cloning, or redistribution.

7. Ownership

All ownership and intellectual-property rights in the Licensed Audio remain with the applicable creator and publisher. No ownership is transferred to the recipient.

8. Termination

This license terminates automatically upon material breach. After termination, the recipient must stop using and distributing the Licensed Audio unless the rights holder provides written reinstatement.

9. No warranties

To the fullest extent permitted by law, the Licensed Audio is provided as-is, without warranties of merchantability, fitness for a particular purpose, or noninfringement. The rights holder is not liable for indirect, incidental, special, or consequential damages arising from its use.
